## Important Notes/New Features

### On the Home Page:

- The announcements box is updated with new information as needed during open windows.
- The large buttons on the home page indicate which sections of SDRR are open by their color – green is open, red is closed. Users can click on the button to navigate to the appropriate section, or directly on the links within each button.
- There is information which is easily visible that indicates and links to the number of student changes, as well as a link to view and save information regarding College and Career Readiness (CCR) scores.
- There is a list of tasks to accomplish during the open period, so that users can check them off as they are completed.
- The student listing and change listing may be downloaded after the roster period ends by clicking on the Download link on the home page.
- Save exports in PDF or Excel format (can also use filters before exporting).
- A site for practice and training is found at <https://oaa-adc.education.ky.gov/Sandbox/>, uses the same credentials, and is available any time.

### On the Student Listing:

- The only functionality on the student listing is to edit or add CCR scores for students.
- If any score is changed, the date of the test will need to be entered.
- Note that the export of the student listing includes both college and career scores for students. The only scores that can be edited in SDRR are The ACT, ACT Compass, KYOTE, and Transition Attainment Record (TAR). Any necessary changes to the career test scores will need to be made in TEDS.
- There are no changes to accountability on the CCR scores section of SDRR. Accountability changes can be requested in the Data Review section if needed.
- There are no non-participation reasons for CCR. If a student received a G-Code, they are a graduate and will be included in calculations.

### On the Change Listing:

- Ability to filter changes by status, school, etc.
- Export change listing to PDF or Excel (can also use filters before exporting).

We hope these changes are useful, and encourage users to provide feedback or suggestions to [KDEAssessment@education.ky.gov](mailto:KDEAssessment@education.ky.gov).

Welcome!

SDRR is designed to assist district personnel in reviewing the accuracy of the assessment results in a timely fashion so that accurate results may be shared with the public as quickly as possible.

This application will enable district personnel to locate errors in student data, submit data review requests, and track the progress of each request online. Users are no longer required to upload data review requests via a web portal.

SDRR will be used to conduct web-based data reviews for all state required assessments, including the Kentucky Performance Rating for Educational Progress(K-PREP), EXPLORE, PLAN, ACCESS for ELLs, ACT and other tests.

Please note that SDRR now works in Internet Explorer, Firefox, Safari, and Chrome. The application works on PC or Mac. There is no need to change the screen resolution.

District Assessment Coordinators (DACs) will log in with the same user name (which must be in ALL CAPS) and password used to access the secure web applications provided by the Office of Knowledge, Information and Data Services (KIDS). All DACs have already been provided access, and the District WAAPOC can add school and district level users access by granting them the appropriate permissions for their school(s) upon request of the DAC. **The Office of Assessment and Accountability does not manage user names or passwords; those are handled on a local level by the District WAAPOC.** There is a link below the log in box to request a hint if you have forgotten your user name and/or password.

## Log In

Enter your user ID and password where indicated, in the blue box on the right side of the log in page. If you are a DAC, district-level user, or a BAC with access to multiple schools, you will see a pop-up box (as shown below) appear asking you to select the data you wish to view. This can be changed later without logging out (also as shown below). DACs are encouraged to select the District, as this will give access to all schools' data. BACs with access to multiple buildings should select the first school they wish to review.

<p>Data from <b>multiple</b> schools are available to you. However, you may only access one entity at a time. Please select a school or district that is available to you from the list below, and the selected data will load automatically.</p> <div><p><input checked="" type="radio"/> Adair County - Data Editor</p><p><input type="radio"/> Adair County High School - Data Editor</p><p><input type="radio"/> Atherton High School - Data Editor</p><p><input type="radio"/> Jefferson County - Data Editor</p></div> <p><input type="button" value="Go"/> <input type="button" value="Cancel"/></p>	<div><p>Your Location: <b>Adair County</b></p><p><input type="button" value="Change Access Location"/></p></div>

Both the change listing (Excel or PDF formats) and the student listing (Excel format) may be exported, and filters may be applied prior to exporting if needed.

**IMPORTANT NOTE:** The Excel and PDF exports are provided as a convenience to school and district staff, and are intended to be used in identifying students whose information is incorrect and to provide information about changes. Making changes to an exported file will NOT result in SDRR changes. Requests for SDRR changes MUST be made online in the application.

Please note that the export will also include career scores. If those are incorrect, changes should be made in TEDS.

If you have Excel 2007, you will see the following message when the file is opening:

Click on Yes to open the file. If you save the file as an Excel 1997-2003 workbook, you will no longer see this message.
